Dear Sally:

Thank you for your job description for senior Oracle Database Administrator in San Diego. I am currently employed full time for a small company where I provide a wide range of support functions. I am very interested in an opportunity to focus full time on the Oracle DBA role.

As my attached resume will show I have a broad range of skills and experience. I am looking for opportunities to focus more on Oracle database products. This opportunity looks very good to me in that regard. As my wide range of skills would indicate, I pick up new skills very quickly. You might say computers are second nature to me.

As I indicated in our email exchange, I do not perform well in telephone interviews. I hope my skills and experience are sufficient to justify moving forward with face-to-face interviews. I carry significant responsibilities in my current position so I would need 5 business days advance notice for an interview. Tuesday, Thursday, and Friday afternoons are best for me.

Please let me know if you require any additional information.

Sincerely,

Larry Breyer
Oracle Database/System Administrator
